

Request for an Expressions of Interest

The Kenya Biogas Program operated under the ABPP Umbrella, requests for Expressions of Interest (Eols) for After Sales Service Unit for domestic bio-digesters in Kenya. Selected parties will receive training in bio-digester technical inspection, after sales service, reporting on Taroworks mobile app, will sign a code of conduct and will receive an After Sales Services Unit (ASSU) certificate from the program.

Scope of work

ASSU will report, inspect, and conduct after sales service on bio-digesters in their working area as directed by the Kenya Biogas program according to a detailed inspection protocol. Where inspection takes place with the constructing agency present, on-site instruction or Technical advice to sector players in their respective area of operation (where relevant) may be part of the assignment. Expected output from the inspection, shall be submission of a Q-report - consisting of GPS location, pictures, technical inspection report and narrative- to the Kenya Biogas Program.

Area of work

ASSU will be selected for a designated working area.

Volume of work

6 months contracts will be awarded to successful applicants, and will be renewed following demand in the sector and assessment of the after sales and reporting.

Criteria

To qualify, interested parties shall meet following criteria:

- Ethical: Successful applicants show no evidence of fraudulent, deceptive, misleading or insidious behaviour and subscribe to the code of conduct for the Kenya Biogas Program.
- Technical: Preferably have knowledge of biogas technology (to be established with an entrance test) and previous experience in using Taroworks mobile app.
- Quality: Successful applicants have proper understanding of quality challenges in the sector and show behavioural competences (especially interpersonal skills, aptitude, highly adaptable), combining quality management with on-site instruction.
- Background: Must not be a constructing agency working with Kenya Biogas Program.
- Education: Preferably a graduate

Expression of Interest

Interested parties may submit their Eol by email to the Kenya Biogas Program (info@kbp.co.ke) before March 2 2018. Further information can be obtained from www.kenyabiogas.com

Eols shall contain the following information:

- Introduction of applicant (including work experience and education and working area) and/or introduction of company of applicant (including location of establishment and working area)
- Bio-digester track record (similar or related work done in the past, and geographical preferred area)
